Ranchi, Jharkhand | +91-6203077667 | kaushalkr.585@gmail.com | [LinkedIn](#) | [GitHub](#)

Education

NIST University

B.Tech in Computer Science and Engineering | CGPA: 8.2/10.0

Brahmapur, Odisha

Aug 2022 – May 2026

Technical Skills

Languages: Python, JavaScript, SQL, C/C++, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Responsive Design, UI/UX Design

Backend: Node.js, Express.js, RESTful APIs, API Integration, Authentication

Databases: MongoDB, MySQL, Firebase, Database Optimization, Query Optimization

ML/AI: Scikit-learn, Model Evaluation, Feature Engineering, Data Preprocessing, PCA

Tools & Platforms: Git, GitHub, VS Code, Postman, IntelliJ IDEA, Vercel, npm

Core CS: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Software Development Life Cycle

Projects

CLOTHSY – Full-Stack E-Commerce Platform | React, Node.js, Express, MongoDB

- Engineered full-stack e-commerce application with authentication, shopping cart, and product catalog serving 100+ products with real-time inventory management
- Architected RESTful API with MongoDB achieving 12s page load time and 98% uptime through optimized queries
- [Live Demo](#) | [GitHub](#)

Modern Portfolio Website | React, Tailwind CSS, JavaScript

- Developed responsive portfolio achieving 95+ Lighthouse score with mobile-first design and smooth animations
- [Live Demo](#) | [GitHub](#)

Thumblify – AI Thumbnail Generator | React.js, Node.js, REST API, AI Integration

- Built a full-stack AI-powered thumbnail generation app with a responsive React frontend and Node.js backend, integrating third-party AI APIs via RESTful endpoints.
- [Live Demo](#) | [GitHub](#)

Experience

Rashtriya Ispat Nigam Limited (RINL) – Vizag Steel Plant

Vizag, India

Database Systems Intern

Jan 2025 – Feb 2025

- Optimized 50+ complex SQL queries using JOIN operations, GROUP BY, subqueries, and indexing strategies, reducing query execution time by 40% and improving overall database performance
- Analyzed and normalized relational database schemas applying 3NF normalization principles across 10+ production tables, reducing data redundancy by 30% and improving data integrity
- Managed large-scale operational datasets exceeding 100K+ records in industrial RDBMS environment, generating reports and insights for production planning and quality control

NIST University

Brahmapur, Odisha

Machine Learning Intern

Jun 2024 – Aug 2024

- Developed ML-based healthcare prediction system using Python, Scikit-learn, and supervised learning algorithms achieving 92% prediction accuracy on test dataset of 1,000+ patient records
- Performed data preprocessing, feature engineering, and selection using correlation analysis and PCA, improving model performance by 15% and reducing training time by 25%
- Conducted model evaluation using cross-validation, confusion matrix, and ROC-AUC analysis to validate reliability and optimize performance metrics

Infosys Virtual Internship Program

Remote

Python Programming Intern

Jul 2023 – Sep 2023

- Mastered Python fundamentals including OOP concepts, data structures (lists, dictionaries, sets), and modular programming through 50+ coding exercises and mini-projects
- Implemented file handling, exception handling, and debugging practices improving code reliability and error management

Certifications

Python Programming – Infosys (2023) | Machine Learning – NIST University (2024) | Database Management Systems – RINL (2025)
